SUMMARY OF SKILLS

- Rockwell PLC programming: Ladder Logic, SFC, and Structured Text (Studio 5000)
- FANUC and KUKA robotic programming, commissioning, and troubleshooting
- HMI development: Ignition, FactoryTalk Optix, FactoryTalk View, SYSMAC
- Industrial networking: EtherNet/IP, IO-Link
- Machine vision integration and inspection programming
- VFD programming and troubleshooting (ABB)
- Safety machine control and safety PLC integration
- PCB and embedded systems design (C++, Python)
- Mechanical, pneumatic, and electrical systems support
- Circuit Analysis
- Experience with Java, Turing, and Lua
- Problem-Solving, Communication, and leadership Skills

WORK EXPERIENCE

Automation Programmer, ETHOS Automation, Brantford ON

2025-Present

- Developed and debugged PLC programs for automation systems using Allen-Bradley ControlLogix and CompactLogix in Studio 5000 (Ladder Logic, Structured Text, SFC)
- Programmed and commissioned FANUC industrial robots for material handling applications including vision-assisted handling
- Configured and troubleshoot industrial communication networks using EtherNet/IP, and IO-Link
- Developed HMI applications using FactoryTalk Optix and FactoryTalk View Machine Edition
- Programmed and troubleshoot ABB VFD applications for motor speed and torque control
- Provided mechanical and pneumatic support as required for controls integration

Skills Competitor, Humber College, Etobicoke ON

2022-2024

- Integrated complete automated systems (PLC, robotics, HMI, vision, pneumatics) under strict timed competition conditions, directly simulating high-uptime industrial production demands
- Diagnosed and resolved system faults rapidly under timed pressure, developing strong troubleshooting discipline analogous to production line uptime recovery
- Designed custom tooling and ergonomic solutions to optimize task execution speed and efficiency

Skills Coach, Humber College, Etobicoke ON

2023-2025

- Designed new unique automated systems for the students I was training
- Identified weaknesses of competitors and tailored learning opportunities to build on those weak areas
- Help teach stress management strategies to the students I was training
- Trained students to be 2 time National Champions

Grocery Clerk, Superstore, London ON

2020-2022

- Stocked groceries to a shelf in a timely, yet precise manner.
- Helped customers find products that they are having a hard time finding.
- Unloaded skids of new product from trucks and into the main building by means of power equipment.

WorldSkills Mechatronics Competition

Gold at the Humber Polytechnic internal competition	2023
Gold at the SkillsOntario Provincial competition	2023
Gold at the SkillsCanada National competition	2023
Best of Region Award at the SkillsCanada National competition in Winnipeg	2023
Received the highest score among competitors at the SkillsFrance National competition	2023
Received the Medallion for Excellence at WorldSkills Lyon 2024 in France, placing 16th in the world	2024

SOFTWARE KNOWLEDGE

-
- Studio 5000
 - Ignition (Inductive Automation)
 - FactoryTalk View Machine Edition
 - FactoryTalk OPTIX
 - SYSMAC Studio (PLC + HMI)
 - SolidWorks
 - Fusion 360
 - AutoCad
 - EasyEDA
 - LTspice
 - Cura
 - Photoshop CS4
 - GIMP
 - DaVinci Resolve

EDUCATION

Electromechanical Engineering Technology co-op at Humber College	Sept 2022 - Aug 2025
Valedictorian of graduating class	Aug 2025

Certifications

-
- Fanuc HandlingTool Operation & Programming
 - Ignition Core Certification (Inductive Automation)
-
